Subject: RE: AK Steel - preliminary results - DRAFT

Thanks George,
I did not receive a copy yet. I will consider this as preliminary until notified otherwise.
Diane

Importance: High

Hi Bob,

Please find the preliminary results for samples collected near AK Steel on May 7th and 8th.

This data is considered preliminary. The instrument raw data and associated quality control information have not been reviewed against our laboratory standard operating procedures (SOPs) by the primary analyst and a second, trained analyst. The data are pending a final data verification as specified in our laboratory data verification SOP. Until the final report is issued, these preliminary results are subject to change.

Our lab is preparing a similar package for samples collected on May 23rd and 24th. We will transmit as soon as it is available, as well as the final reports.

Please reach out should you have any questions. Thank you!

Katie Siegel, Chief
Air Toxics and Assessment Branch
Air and Radiation Division
U.S. EPA Region 5
